

RECTOR'S ADVENT/CHRISTMAS MESSAGE

My Dear Friends,

We all know that 2020 has been quite a year. Everything it seems has gone sideways in so many regards. However, the gift of Advent, the anticipation of the coming of our Saviour's birth is not one of them.

For the Christian, this is our bright light and eternal hope that will never be extinguished despite the darkness and gloominess of this earthly life at times. The climax of this comes with the birth of the baby on Christmas Day. The same baby who grows to be a man and will eventually go to the cross for our redemption and life eternal for all who believe.

During this season may hope eternal spring within your knowing that the little baby born this Christmas Day is not only the real reason for the season, but our only true light of life and hope eternal.

May God bless you all this Christmas season and may you in turn be a true blessing to others.

Sincerely,

Wayne +
